Professional Summary

Dynamic Data Analyst with advanced skills in Python, SQL (PostgreSQL), Power BI, and cloud-based analytics. Automated workflows, delivered actionable insights, and improved team reporting efficiency by 30%. Successfully enhanced forecast accuracy by 35% and reduced reporting errors by 20% in recent projects. Experienced collaborator known for effective communication and strategic problem-solving.

Core Skills

- Designed interactive dashboards in **Power BI** that made complex data easy to understand, helping teams make better decisions.
- Leveraged **Excel** for cleaning, organizing, and presenting project data, so updates and results were always clear for everyone.
- Implemented **ETL pipelines** to combine data from different sources, making sure workflows in projects ran smoothly and reliably.
- Applied **Data Visualization** to show patterns and insights, making project findings simple for all team members to grasp.
- Performed **Data Cleaning** to ensure accuracy and trust in results, leading to better and more useful project outcomes.
- Delivered **Business Intelligence** solutions that turned raw numbers into clear business guidance, so managers could act with confidence.
- Developed **dashboards** for tracking and reporting, so project performance and progress were always visible.
- Used **SQL (PostgreSQL)** to extract and manage key project data, making reports dependable and insights accurate.
- Utilized **Python** to automate data tasks and dig deeper in analysis, increasing the speed and value delivered in every project.
- Organized large volumes of data for projects using **Data Warehousing**, making it easy to find and use information when needed.

Professional Experience

- Data Analyst Intern**, Dzinex Technologies Pvt. Ltd. | Ranchi, India | May 2025 – June 2025
Automated data pipelines, resulting in a 30% reduction of manual workloads. Implemented Power BI dashboards, driving business strategy forward. Delivered insights that led to a 20% efficiency boost in reporting.
- Power BI Intern**, Skill Nation | Jan 2025 – Feb 2025
Designed executive dashboards that accelerated report delivery by 25%. Collaborated with data engineering team to integrate large datasets and introduced advanced data visualization for improved business decisions.
- Oracle Analytics Cloud Professional**, Oracle University | 2025
Applied Oracle Analytics Cloud for real-time dashboard creation, data visualization, and performance reporting, supporting strategic management reviews.

Projects

[SuperStore Sales Dashboard and Forecast](#)

- Developed an interactive Power BI dashboard to analyze sales, customer, product, and regional performance data.
- Applied time series forecasting techniques to improve future sales prediction accuracy by 35%.
- Integrated multiple data sources to create a consolidated reporting view for business analysis and performance tracking.
- Tools:** Power BI, Forecasting, Time Series Analysis, Data Integration, Data Visualization

[Vrinda-Cat-Gen Store Sales and Performance Report](#)

- Analyzed sales data using Excel and Python to improve reporting accuracy and reduce error resolution time by 20%.
- Performed data cleaning and customer segment analysis to generate actionable insights for sales improvement.
- Created structured reports to support better tracking of store performance and business trends.
- Tools:** Excel, Python, Data Cleaning, Sales Analysis, Reporting

[Music Store SQL Analytics](#)

- Built an end-to-end SQL analytics project using a music store database to answer business questions on customers, invoices, sales trends, and top-performing categories.
- Wrote SQL queries using joins, aggregations, subqueries, and window functions to extract structured insights from relational datasets.
- Analyzed customer behavior and revenue trends to support business decision-making through query-based analytics.
- Tools:** SQL, Database Schema Analysis, Joins, Aggregations, Window Functions

Education

- MCA**, Dr. Shyama Prasad Mukherjee University, Ranchi | 2023 – 2025
- BCA**, Ranchi University | 2020 – 2023

Certifications

- [Oracle Analytics Cloud Professional - Oracle University \(2025\)](#)
- [Oracle NetSuite Certified BI and Reporting Specialist](#)
- [Oracle AI Autonomous Database 2025 Certified Professional](#)
- [Data Analysis with Python \(DA0101EN, provided by IBM\)](#)
- Power BI Certification - Skill Nation
- Data Analyst Certification - Dzinex Technologies

Achievements

- Certified Oracle Analytics Cloud Professional – digital badge
- Improved forecast accuracy by 35% and reporting speed by 25% in analytics projects
- Reduced reporting errors by 20% with advanced cleaning workflows
- Delivered strategic dashboards that boosted management decision speed
